## Experience

### Developer & Designer Worldwide Golf

2016 - Current | Tustin, CA

I manage a four person team and plan all of our projects. I design and code all UI elements for the website. I also manage tech projects like site implementing analytics tooling, advanced search, and manage contracted teams. I design and build emails in Listrak. I do all front end coding and mocks for the site.

### UI Designer Managed Logix

2015 - 2016 | Irvine, CA

I redesigned the company's internal CRM. Worked closely with users to generate user stories while identifying and eliminating pain points. Designed and A/B tested lead gen landing pages to increase conversion rates. Managed our team of contract developers.

### UI Designer The Dot Corp

2015 - 2016 | Santa Ana, CA

Redesigned the entire B2B print on demand user interface as well as the login portals. Worked with current users to improve the user experience. Provided mocks, prototypes, and site map deliverables all built in Axure. Quickly learned Axure to complete the work at the request of the company.

### Web Designer Red Fox

2014 - 2015 | Irvine, CA

Edited landing pages and websites with HTML, CSS, and Bootstrap. Reviewed sites and compiled lists of needed features to increase conversion. Designed flyers and business cards.

## Skills

HTML	Web Design	Adobe
